### Description and purpose of change

Update of the sensor firmware to version 1.17.

### Details of change

Due to unification of the firmware with the GEMAC Motus Blackline family, the sensor firmware is updated to version 1.17. The update does not include any functional changes or changes to the technical parameters of the sensor. The change will take place by the start of Q2/2025. Due to stock levels, there may be a longer changeover period. The firmware version used is documented during the production process and can be provided for individual sensors if required.

### Reliability / Qualification summary

No changes in specification or functional behavior of the sensor.

### Alternate part (s)

n.a.

#### Address

GEMAC Chemnitz GmbH  
Zwickauer Straße 227  
D-09116 Chemnitz  
Germany
